Edition I May 2008

## Latest news...

No your emails and requests have not gone unread. These are only stuck on my "sick" hard drive. I hope to have it back in my mac next week with all data recoverd.

I will be in touch with everyone within the next two weeks. Please accept my apologies.

## So what is this new stuff... ...for now: doll fashions!

There is still so much to add to our new web shop and yet we have not stopped creating a new line.

New dolls call for new fashion. With the help of doll artists and customer requests we can keep up with the demands for new dress lines.

In addition to our regular sizes we have started creating for ; the new 14" / 35cm jointed doll from Helen Kish, Dianna Effner's Studio vinyl in 13 / 33cm", BJDs in various sizes, Sasha dolls, and many more.

Also we have started trying regular sizes of different dolls. Like the denim skirt pictured here in size 28cm / 11" which fits a wide range of dolls. This will be an ongoing project. We promise to keep you posted!!

## Trying to keep up with the demands of our "global" doll world....

### New Dianna Effner sculpts

Boneka fans have posted these questions to me directly and via various groups.

The answer to this is yes!

Dianna created two new sculpts for us in 2007. Thursday's Child our little Asian was first introduced at UFDC Convention in Detroit, Michigan.

The other new sculpt was intended to be a "caucasian" girl that we had made in a dark skinned vinyl. This is Thursday's Child who was first introduced in 2007 at Modern Doll Convention in San Antonio.

Both dolls will be available in different outfits by the end of the Summer of 2008.

Tuesdays's Child will also be available in limited edition

specials - purely to satisfy my need to be creative and dress dolls. These too will be out the end of Summer 2008.

Surely you are not really interested in all the "lame" reasons that I have for not being able to get these dolls out earlier.

Fiancial reasons being the main one!

### Gossip Column

Recent sighting.....

Claudia has been caught playing with a headless doll! She has discovered a new passion - impossible poses!!

In a brief interview with Boneka manager Claudia we were informed that this doll had no head which posed problems during the photoshoot. "A ball of yarn would not do. So I decided to try my hand at sculpting a felt head."

Photos on the webshop are preliminary and will be re-shot as soon as "Haley" has a head.

"Doll making will not be my future calling", Claudia's last words.
